Corruption, Global Security, and World Order

Corruption, Global Security, and World Order

Never before have world order and global security been threatened by so many destabilizing factors—from the collapse of macroeconomic stability to nuclear proliferation, terrorism, and tyranny. *Corruption, Global Security, and World Order* reveals corruption to be at the very center of these threats and proposes remedies such as positive leadership, enhanced transparency, tougher punishments, and enforceable sanctions. Although eliminating corruption is difficult, this book's careful prescriptions can reduce and contain threats to global security.
