Of Paradise and Power: America and Europe in the New World Order (Random House Large Print Nonfiction) Robert Kagan

From a leading scholar of our country's foreign policy, the brilliant essay about America and the world that has caused a storm in international circles now expanded into book form.

European leaders, increasingly disturbed by U.S. policy and actions abroad, feel they are headed for what the New York Times (July 21, 2002) describes as a "moment of truth." After years of mutual resentment and tension, there is a sudden recognition that the real interests of America and its allies are diverging sharply and that the trans-atlantic relationship itself has changed, possibly irreversibly. Europe sees the United States as high-handed, unilateralist, and unnecessarily belligerent; the United States sees Europe as spent, unserious, and weak. The anger and mistrust on both sides are hardening into incomprehension.

This past summer, in *Policy Review*, Robert Kagan reached incisively into this impasse to force both sides to see themselves through the eyes of the other. Tracing the widely differing histories of Europe and America since the end of World War II, he makes clear how for one the need to escape a bloody past has led to a new set of transnational beliefs about power and threat, while the other has perforce evolved into the guarantor of that "postmodern paradise" by dint of its might and global reach. This remarkable analysis is being discussed from Washington to Paris to Tokyo. It is essential reading.
