Others Unknown : The Oklahoma City Bombing Conspiracy Stephen Jones, Peter Israel

The bombing of the Alfred P. Murrah Federal Building in Oklahoma City was the greatest act of terrorist violence ever committed in the United States. Timothy James McVeigh and Terry Lynn Nichols were accused, tried, and convicted in the bombing conspiracy. Whatever one says about that verdict and, as McVeigh's counsel, I will have a great deal to say in these pages it strains belief to suppose that this appalling crime was the work of two men any two men. I believe it came about because of foreign involvement. I also believe our government might have prevented the whole thing if it had been paying attention. This book is an attempt to explain what happened and why. On April 19, 1995, in downtown Oklahoma City, a bomb went off outside the Alfred P. Murrah Federal Building. One hundred and sixty-eight people, many of them children, were killed, and hundreds of others were wounded. It was the worst case of domestic terrorism in the history of the United States. Within hours, Timothy James McVeigh was arrested. Within a few days, Terry Lynn Nichols was also in custody. The case against them, as presented by the United States government, was uncomplicated, black and white in tone, and severely limited in focus. It pointed the finger at these two men and these two men only. It was all so simple. Too simple. In a book that will challenge not only what America thinks about the bombing, but what it thinks about its own Federal government, Stephen Jones, chief defense counsel during the McVeigh trial, reveals what really happened, not just on that terrible April morning, but before and after. *Others Unknown* reveals: evidence that the Oklahoma City bombing plot could not have been exclusively the work of two men any two men; evidence that the United States government may have had prior knowledge about the attack and failed to act on it including confidential statements from an ATF informant who told them in advance about the attack and an anonymous, phone warning prior to the blast; evidence that from the moment the bomb exploded the United States government disregarded information that would have weakened their cases against Terry Nichols and Timothy McVeigh; possible links between Islamic terrorist Osama bin Laden the leading suspect in the recent bombings of the American Embassies in Kenya and Tanzania and Terry Nichols; information about John Doe No. 2 the mysterious man who multiple people identified as the renter of the Ryder truck; and troubling evidence about Terry Nichols' secret past and questions about his many mysterious trips to the Philippines. Jones reveals a tangled, sinister web that included such figures as Richard Mahon, a leader of the KKK and White Aryan Resistance who was secretly taking money from the Iraqi government; Carol Howe, a former debutante turned neo-Nazi who became a government informer; and Andreas Strassmeir, grandson of one of the founders of the Nazi party, whose own neo-Nazi beliefs led him to Oklahoma and the plot. Traveling from Oklahoma to Europe to the Middle East and Asia, Jones uncovers a bomb plot far more complicated than previously known. And he shows exactly how the government worked to prevent the true story from emerging. A book of startling conclusions and evidence, *Others Unknown* is a tale of conspiracy, terrorism and justice undone.
