Reading Capital: The Complete Edition Louis Althusser

A classic work of Marxist analysis, available unabridged for the first time

Originally published in 1965, *Reading Capital* is a landmark of French thought and radical theory, which sought to reconstruct Western Marxism from its foundations. Previously only available in English in a highly abridged form, this 50th anniversary edition restores original chapters by Roger Establet, Pierre Macherey and Jacques Rancière, accompanied by a major new introduction by Etienne Balibar on the book's continued impact. France's greatest philosophers scrutinize many of the most fundamental points in Marx's iconic text to reveal its philosophical core.

From the Trade Paperback edition.
