Jackson, The Avenger. Alone most of his life, people feared him more than appreciated his psychic abilities; abilities that had kept their race safe for more than three hundred years. No one understood the pain and the solitude that came with being a Mind Bender. He saves who he can, and kills those who try to stop him. His world is black and white. Simple. Until now. Marilena has no one to turn to. Swept away from her home world as a child, she's lived in hiding with her parents most of these years. And now, the enemies who forced their flight to Earth have come...and are searching for her. Dare she trust the Kataran Warrior who swears her enemies are his? Where has he been until now, and why is he so interested in her psychic ability? Jackson has been fighting this war for most of his life, and has been an interrogator for even longer. Marilena is a skilled psychic too and understanding her position in this war is proving to be one of the most difficult missions of his career. Is Marilena working with the Skimtar? Jackson isn't sure, but he intends to find out, and first he has to find a way into her mind...
