George Washington

Maxims of Washington: Political, Social, Moral, and Religious (1855) George Washington

The first name of America, not only is, but always will be, that of Washington. We pronounce it with filial reverence, as well as gratitude; for we admire and love him, not merely in consideration of what he did, but what he was. There is a sacred charm in his actions and his sentiments, as well as a divine philosophy in his remarkable career.

But his example and his precepts are a legacy, not only to America, but to all mankind. And as they are contemplating and admiring his virtues, they are invited to read, in his own words, his golden maxims. These are adapted to the use of Statesmen, Soldiers, Citizens, heads of families, teachers of youth, and, in a word, all who should aim at what is great and good, in public and in private life, and who would avail themselves of such sagacious, profound, and ennobling sentiment.

Originally published in 1855; reformatted for the Kindle; may contain occasional imperfection; original spellings have been kept in place.
