## **Creating Rhythms** Stefan Hollos, J. Richard Hollos

This book is the result of a lifelong love of music and an obsession with patterns. The authors have for many years been exploring methods to find, create, describe and analyze patterns. They wrote this book to show how some of these methods can be used to generate rhythms. The methods can produce an almost endless variety of new rhythms along with popular traditional ones. For a lover of music what could be more wonderful than that?

The study of patterns at anything beyond a superficial level does require some mathematics. Fortunately the mathematics can be kept at a very elementary level. Anyone comfortable with a little algebra should have no trouble understanding and using these rhythm generation methods. Only the last chapter on stochastic rhythms requires a bit more than elementary mathematics. Any reader who faints at the sight of an equation should probably not buy the book.

The book has many example rhythms for which there are MIDI files that you can listen to on the book's website: [abrazol.com/books/rhythm1/](http://abrazol.com/books/rhythm1/). There you can also find free software for generating rhythms, doing calculations, and creating MIDI files.

This articles author makes some research prior to write this book. That book very easy to read you will get the point easily after scanning this book.

#### **Cecil Hardin:**

Reading a book to get new life style in this season; every people loves to study a book. When you read a book you can get a lot of benefit. When you read books, you can improve your knowledge, since book has a lot of information onto it. The information that you will get depend on what sorts of book that you have read. If you want to get information about your analysis, you can read education books, but if you act like you want to entertain yourself look for a fiction books, these us novel, comics, and also soon. The *Creating Rhythms* provide you with new experience in reading a book.

#### **Marcela Beach:**

As a scholar exactly feel bored to reading. If their teacher questioned them to go to the library as well as to make summary for some e-book, they are complained. Just little students that has reading's internal or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to presently there but nothing reading critically. Any students feel that looking at is not important, boring along with can't see colorful pics on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this *Creating Rhythms* can make you experience more interested to read.
