On the same day in every year the Sun occupies nearly the same place in the Zodiac. Neither the Moon nor any of the planets do so, but the Sun is much the most powerful body in it's astrological effect. Thus, it is possible to make approximate astrological from these daily Sun positions, irrespective of the year of a person's birth..... Every day of the year has a short paragraph with descriptions of the astrological effects of the person who is born on that day. Also each day has blank lines for your own personal entries. Never forget another birthday.
