A darkly comic inquiry into how to fake your own death, the disappearance industry, and the lengths to which people will go to be reborn.

Is it still possible to fake your own death in the twenty-first century? With six figures of student loan debt, Elizabeth Greenwood was tempted to find out.

So begins her foray into the world of death fraud, where for \$30,000 a consultant can make you disappear—but your suspicious insurance company might hire a private detective to dig up your coffin and find it filled with rocks.

Greenwood tracks down a British man who staged a kayaking accident and then returned to live in his own house while all his neighbors thought he was dead. She takes a call from Michael Jackson (no, he's not dead—or so her new acquaintances would have her believe), stalks message boards for people plotting pseudocide, and buys her own death certificate in the Philippines. Along the way, she learns that love is a much less common motive than money, and that making your death look like a drowning virtually guarantees that you'll be caught. (Disappearing while hiking, however, is a way great to go.)

Utterly fascinating and charmingly bizarre, in the vein of Mary Roach and Sarah Vowell, *Playing Dead* is an empathetic investigation into a universal human fantasy and the men and women desperate enough to give up their lives—and their families—to start again.
