Indigo Children are bright, intuitive, strong-willed, and sometimes self-destructive individuals. They are often labelled (and misdiagnosed) as having ADD or ADHD because they won't comply with established rules and patterns, and they may exhibit behavioural problems at home and at school. In "The Care and Feeding of Indigo Children", Doreen Virtue Ph.D, explores the psyche of these special kids and offers alternative solutions to Ritalin based on her extensive research and interviews with child-care experts, teachers, parents and the Indigo children themselves. Read the accounts of these remarkable young people as they explain why they act out, are aggressive or withdrawn, and what they want from the adults in their lives. You'll be fascinated by the psychic experiences that these kids have had in their life so far. This is a groundbreaking book that can positively affect the ways in which you interact with your children, altering the shape of their future in miraculous ways.
