## **Medical Informatics: An Executive Primer** et al.

Information technology in healthcare is increasingly being applied at the hospital bedside at point-of-care, and at the physician's office, and in our homes no more than a click away. With *Medical Informatics: An Executive Primer*, healthcare executives, managers and clinicians will learn when and how best to use this influx of new technology. *Medical Informatics* includes real-world examples illustrating how technologies such as electronic prescribing, personal health records, computerized practitioner order entry, identity management and electronic health records are changing the way healthcare is provided, and how they improve the quality and safety of patient care. In addition, the book examines the business of medical informatics, with analysis on return on investment, strategy management for implementing an electronic health record, software selection and project management. Special features include case studies on electronic prescribing, regional health information exchange, and the personal health record; a glossary of medical informatics / HIT terms; and an extensive bibliography. 2007. Table of Contents: Electronic Prescribing By Janet Carr, MD; Computerized Practitioner Order Entry and Patient Safety: Panacea or Pandora's Box? By Joseph Kannry, MD; Identity Management in Healthcare By Jonathan Leviss, MD; Certification in Healthcare Information Technology By Abha Agrawal, MD, FACP and Mark Leavitt, MD, PhD; Ambulatory Electronic Health Record By Curtis L. Cole, MD; Return On Investment Analysis By Dov Rothman, PhD; Health Information Exchange By Mark Lipton, MD; Nursing Informatics: Perspectives for Healthcare Executives By Leanne Currie, DNsc; The Personal Health Record By Glenn Martin, MD; Strategy Management: Getting to the EHR By Kenneth R. #### **Lyla Jackson:**

In this period globalization it is important to someone to obtain information. The information will make professionals understand the condition of the world. The condition of the world makes the information much easier to share. You can find a lot of sources to get information example: internet, newspaper, book, and soon. You will see that now, a lot of publisher that print many kinds of book. The particular book that recommended for you is Medical Informatics: An Executive Primer this publication consist a lot of the information of the condition of this world now. This book was represented how can the world has grown up. The vocabulary styles that writer make usage of to explain it is easy to understand. The actual writer made some investigation when he makes this book. Honestly, that is why this book acceptable all of you.

#### **Michael Emery:**

As a pupil exactly feel bored to reading. If their teacher requested them to go to the library as well as to make summary for some publication, they are complained. Just very little students that has reading's heart or real their interest. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading significantly. Any students feel that reading is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this Medical Informatics: An Executive Primer can make you truly feel more interested to

read.
