A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series)

J. P. May

A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) J. P. May Algebraic topology is a basic part of modern mathematics, and some knowledge of this area is indispensable for any advanced work relating to geometry, including topology itself, differential geometry, algebraic geometry, and Lie groups. This book provides a detailed treatment of algebraic topology both for teachers of the subject and for advanced graduate students in mathematics either specializing in this area or continuing on to other fields.

J. Peter May's approach reflects the enormous internal developments within algebraic topology over the past several decades, most of which are largely unknown to mathematicians in other fields. But he also retains the classical presentations of various topics where appropriate. Most chapters end with problems that further explore and refine the concepts presented. The final four chapters provide sketches of substantial areas of algebraic topology that are normally omitted from introductory texts, and the book concludes with a list of suggested readings for those interested in delving further into the field.

From reader reviews:

Sarah Tomczak:

Here thing why that A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) are different and dependable to be yours. First of all examining a book is good but it really depends in the content than it which is the content is as yummy as food or not. A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) giving you information deeper including different ways, you can find any publication out there but there is no book that similar with A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series). It gives you thrill reading journey, its open up your own eyes about the thing that will happened in the world which is maybe can be happened around you. You can bring everywhere like in area, café, or even in your approach home by train. In case you are having difficulties in bringing the published book maybe the form of A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) in e-book can be your choice.

Jeremy Richards:

This A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) is great e-book for you because the content and that is full of information for you who all always deal with world and have to make decision every minute. This particular book reveal it information accurately using great plan word or we can point out no rambling sentences inside. So if you are read that hurriedly you can have whole info in it. Doesn't mean it only provides you with straight forward sentences but difficult core information with attractive delivering sentences. Having A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) in your hand like having the world in your arm, information in it is not ridiculous one particular. We can say that no guide that offer you world within ten or fifteen second right but this book already do that. So , this can be good reading book. Hi Mr. and Mrs. active do you still doubt that will?

Jennifer Barton:

Many people spending their moment by playing outside using friends, fun activity along with family or just watching TV all day long. You can have new activity to shell out your whole day by reading through a book. Ugh, do you think reading a book can actually hard because you have to take the book everywhere? It okay you can have the e-book, delivering everywhere you want in your Cell phone. Like A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) which is having the e-book version. So , why not try out this book? Let's observe.

Manda Perez:

Some people said that they feel uninterested when they reading a book. They are directly felt the item when they get a half regions of the book. You can choose typically the book A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) to make your own personal reading is interesting. Your personal skill of reading expertise is developing when you just like reading. Try to choose very simple book to make you enjoy to see it and mingle the impression about book and studying especially. It is to be very first opinion for you to like to open a book and examine it. Beside that the e-book A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) can to be your brand-new friend when you're truly feel alone and confuse in what must you're doing of that time.
