America is almost over. At least, the America that stood for liberty, opportunity and control of our government by the people. There are a lot of folks who know something is wrong but can't quite put their fingers on it. It's like smelling something rotten but not being able to find it. There are those out there who know what's wrong and can't figure out what to do about it. This book tries to educate the former, offer a reasonable solution to the latter and entertain both. This is a story that asks what if. What if government pushed too far? What if peaceful freedom loving people decided that the future of their country was up to each one of them individually? What if one city, one county, one state, decided to make the federal government follow the constitution as it was written ? This book explores those questions. It is a combination of historical fact with projections into a possible dangerous but hopeful future.
