IT in the Public Sphere: Applications in Administration, Government, Politics, and Planning Zaigham Mahmood

To be successful in the 21st century, governments must make use of digital and communication technologies in order to coordinate resources and collaborate with their citizens.

IT in the Public Sphere: Applications in Administration, Government, Politics, and Planning evaluates current research and best practices in the adoption of e-government technologies in developed and developing countries, enabling governments to keep in constant communication with citizens, constituents, corporations, and other stakeholders in modern societies. Within these chapters, scholars, administrators, managers, and leaders will find the latest information on utilizing digital technologies in their e-governance projects.
