Nursing Diagnosis Reference Manual Sheila M. Sparks, Sparks

This updated edition includes more than 300 completed sample care plans that help nurses write accurate and efficient plans for every NANDA-approved nursing diagnosis. Each care plan includes criteria for identifying the right nursing diagnosis, assessment guidelines, outcome statements, interventions with rationales, and documentation guidelines. Contents include the nursing process; nursing diagnoses and critical pathways; adult, adolescent, child, maternal-neonatal, geriatric, psychiatric, and community-based health; appendices, including Gordon's functional health patterns, Maslow's hierarchy of needs, Orem's universal self-care demands, NANDA taxonomy I revised, and a listing of medical diagnoses with applicable nursing diagnosis; selected references; and an index

From reader reviews:

Cindy Grant:

Nowadays reading books are more than want or need but also get a life style. This reading routine give you lot of advantages. The huge benefits you got of course the knowledge your information inside the book in which improve your knowledge and information. The information you get based on what kind of publication you read, if you want send more knowledge just go with knowledge books but if you want experience happy read one with theme for entertaining such as comic or novel. Often the Nursing Diagnosis Reference Manual is kind of e-book which is giving the reader unforeseen experience.

John Folsom:

Information is provisions for anyone to get better life, information these days can get by anyone in everywhere. The information can be a knowledge or any news even restricted. What people must be consider while those information which is inside former life are difficult to be find than now is taking seriously which one would work to believe or which one typically the resource are convinced. If you receive the unstable resource then you obtain it as your main information there will be huge disadvantage for you. All those possibilities will not happen throughout you if you take Nursing Diagnosis Reference Manual as your daily resource information.

Susan Swain:

Why? Because this Nursing Diagnosis Reference Manual is an unordinary book that the inside of the book waiting for you to snap that but latter it will surprise you with the secret the item inside. Reading this book adjacent to it was fantastic author who else write the book in such amazing way makes the content on the inside easier to understand, entertaining approach but still convey the meaning fully. So , it is good for you for not hesitating having this any longer or you going to regret it. This excellent book will give you a lot of positive aspects than the other book have such as help improving your expertise and your critical thinking technique. So , still want to hold up having that book? If I were you I will go to the reserve store hurriedly.

Mandi Rice:

What is your hobby? Have you heard that question when you got learners? We believe that that concern was given by teacher to the students. Many kinds of hobby, Everybody has different hobby. And you know that little person just like reading or as looking at become their hobby. You must know that reading is very important along with book as to be the issue. Book is important thing to incorporate you knowledge, except your current teacher or lecturer. You get good news or update in relation to something by book. A substantial number of sorts of books that can you choose to use be your object. One of them is niagra Nursing Diagnosis Reference Manual.
