Rapid and On-Line Instrumentation for Food Quality Assurance (Woodhead Publishing Series in Food Science, Technology and Nutrition)

Rapid and On-Line Instrumentation for Food Quality Assurance (Woodhead Publishing Series in Food Science, Technology and Nutrition)

Many measurements of product and process characteristics have traditionally been 'off-line', involving removing the product and taking it to a quality control laboratory for analysis over a period of hours or even days. However, the development of faster, more automated methods of production, and the shift to more proactive quality and safety management systems such as HACCP, has forced the food industry to look for more rapid methods with the potential for continuous, real-time measurement of products and processes. With its distinguished editor and international team of contributors, this important collection summarises key developments in this growing field.

Part one reviews the emergence of new methods for analysing food safety. It includes chapters on the detection of foreign bodies, other contaminants such as toxins, pesticides, dioxins and veterinary residues, and rapid methods for detecting pathogenic and spoilage bacteria. Part two discusses the measurement of product quality. There are chapters on analysing ingredients such as additives and micronutrients, genetically-modified organisms and added water. A number of chapters discuss methods for analysing food composition, and the use of electronic noses to monitor food quality. A final chapter reviews ways of integrating such measurements into effective process control.

Rapid and on-line instrumentation for food quality assurance provides a benchmark of good practice in this important field, and will be a valuable reference for the food industry.

- Summarises key developments in the growing field of food quality assurance, focussing on rapid and on-line instrumentation
- Includes chapters on the detection of foreign bodies, pathogenic and spoilage bacteria and other contaminants such as toxins, pesticides, dioxins and veterinary residues
- Discusses the measurement of product quality and analyses ingredients such as additives and micronutrients, genetically-modified organisms and added water

From reader reviews:

Glenn Hancock:

Within other case, little folks like to read book Rapid and On-Line Instrumentation for Food Quality Assurance (Woodhead Publishing Series in Food Science, Technology and Nutrition). You can choose the best book if you like reading a book. So long as we know about how is important a new book Rapid and On-Line Instrumentation for Food Quality Assurance (Woodhead Publishing Series in Food Science, Technology and Nutrition). You can add know-how and of course you can around the world with a book. Absolutely right, mainly because from book you can know everything! From your country until foreign or abroad you will be known. About simple factor until wonderful thing you could know that. In this era, we could open a book or maybe searching by internet gadget. It is called e-book. You need to use it when you feel fed up to go to the library. Let's study.

Larry Witcher:

This Rapid and On-Line Instrumentation for Food Quality Assurance (Woodhead Publishing Series in Food Science, Technology and Nutrition) usually are reliable for you who want to be a successful person, why. The explanation of this Rapid and On-Line Instrumentation for Food Quality Assurance (Woodhead Publishing Series in Food Science, Technology and Nutrition) can be one of the great books you must have is actually giving you more than just simple reading food but feed you actually with information that probably will shock your previous knowledge. This book is handy, you can bring it just about everywhere and whenever your conditions throughout the e-book and printed people. Beside that this Rapid and On-Line Instrumentation for Food Quality Assurance (Woodhead Publishing Series in Food Science, Technology and Nutrition) giving you an enormous of experience like rich vocabulary, giving you trial of critical thinking that we know it useful in your day activity. So , let's have it and luxuriate in reading.

Marshall Jackson:

Do you like reading a book? Confuse to looking for your chosen book? Or your book was rare? Why so many issue for the book? But any people feel that they enjoy for reading. Some people likes examining, not only science book but in addition novel and Rapid and On-Line Instrumentation for Food Quality Assurance (Woodhead Publishing Series in Food Science, Technology and Nutrition) or even others sources were given expertise for you. After you know how the fantastic a book, you feel need to read more and more. Science e-book was created for teacher as well as students especially. Those publications are helping them to add their knowledge. In various other case, beside science publication, any other book likes Rapid and On-Line Instrumentation for Food Quality Assurance (Woodhead Publishing Series in Food Science, Technology and Nutrition) to make your spare time a lot more colorful. Many types of book like this.

Farah McCune:

As a university student exactly feel bored for you to reading. If their teacher asked them to go to the library

or to make summary for some e-book, they are complained. Just small students that has reading's heart or real their leisure activity. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading significantly. Any students feel that reading is not important, boring and can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Rapid and On-Line Instrumentation for Food Quality Assurance (Woodhead Publishing Series in Food Science, Technology and Nutrition) can make you really feel more interested to read.
