The Social Construction of Difference and Inequality: Race, Class, Gender and Sexuality Tracy Ore

This anthology examines the social construction of race, class, gender, and sexuality and the institutional bases for these relations. While other texts discuss various forms of stratification and the impact of these on members of marginalized groups, *The Social Construction of Difference and Inequality* provides a thorough discussion of how such systems of stratification are formed and perpetuated and how forms of stratification are interconnected. Critical thinking questions at the end of each reading and part opening essays aid students in understanding how the material relates to their lives and how their own attitudes, actions, and perspectives may serve to perpetuate a stratified system.
