Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series) Robert Jonathan Cabin

Robert J. Cabin uses the restoration of tropical dry forestland in Hawaii as an in-depth case study to investigate the scientific, practical, and philosophical issues associated with performing ecological restoration in the messy real world.

Interweaving entertaining narratives of his own on-the-ground experiences as a practicing restorationist with reflections about his scientific training and background, Cabin explores the relationship between science and practice in ecological restoration. He observes that because restoration can be complex and value-driven, its implementation often turns out to be as much interdisciplinary art as hard science.

Despite the often distinct cultures and methodologies of scientists and practitioners, Cabin shows how each has a vital role in effective restoration and offers suggestions for improving working relationships.

One approach he advocates is what he calls "intelligent tinkering," after the work of Aldo Leopold. In this model, practitioners employ the same kind of careful but informal trial-and-error strategy followed by such groups as indigenous peoples and hobbyist mechanics. Cabin illustrates the power of intelligent tinkering using examples from his own work and other restoration projects.

The gap between science and practice is not unique to ecological restoration; it is a widespread problem across all fields of applied science. Written in a clear and engaging style, *Intelligent Tinkering* offers an insightful look at the underlying causes of the problem, along with invaluable suggestions for addressing it.

From reader reviews:

Megan Rivera:

This Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series) book is not ordinary book, you have it then the world is in your hands. The benefit you will get by reading this book is usually information inside this publication incredible fresh, you will get info which is getting deeper an individual read a lot of information you will get. That Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series) without we recognize teach the one who studying it become critical in considering and analyzing. Don't possibly be worry Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series) can bring any time you are and not make your case space or bookshelves' become full because you can have it inside your lovely laptop even mobile phone. This Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series) having very good arrangement in word in addition to layout, so you will not experience uninterested in reading.

Cindy Knutson:

Here thing why this particular Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series) are different and reputable to be yours. First of all reading through a book is good however it depends in the content than it which is the content is as delightful as food or not. Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series) giving you information deeper and different ways, you can find any guide out there but there is no guide that similar with Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series). It gives you thrill looking at journey, its open up your current eyes about the thing this happened in the world which is might be can be happened around you. It is easy to bring everywhere like in area, café, or even in your means home by train. For anyone who is having difficulties in bringing the paper book maybe the form of Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series) in e-book can be your option.

Madeline Edwards:

Reading a e-book tends to be new life style with this era globalization. With examining you can get a lot of information that will give you benefit in your life. Using book everyone in this world can certainly share their idea. Publications can also inspire a lot of people. Plenty of author can inspire all their reader with their story or perhaps their experience. Not only the storyline that share in the publications. But also they write about advantage about something that you need example. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors nowadays always try to improve their skill in writing, they also doing some study before they write to their book. One of them is this Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series).

William Luke:

Do you have something that suits you such as book? The publication lovers usually prefer to choose book like comic, small story and the biggest the first is novel. Now, why not attempting Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series) that give your fun preference will be satisfied simply by reading this book. Reading routine all over the world can be said as the way for people to know world better then how they react in the direction of the world. It can't be mentioned constantly that reading behavior only for the geeky particular person but for all of you who wants to become success person. So , for every you who want to start reading as your good habit, it is possible to pick Intelligent Tinkering: Bridging the Gap between Science and Practice (The Science and Practice of Ecological Restoration Series) become your own personal starter.
