About Face!: Why the World Needs More Carbon Dioxide; The Failed Science of Global Arthur Middleton Hughes, Madhav Khandekar, Cliff Ollier

About Face! Why the World Needs More Carbon Dioxide is easy reading from two scientists and an economist. It will change your understanding of climate science and explain how we can save millions of lives and billions of dollars per year.

"If you are in the slightest doubt about what the climate change alarmists are trying to get us to do --and pay for -- you should read this book." --Dr. Peter Walsh, Geologist, London, England

"This book should be compulsory reading for everyone seriously interested in the Earth's future --global warming alarmists included." --Wyss Yim, Professor of Earth Sciences, Hong Kong

"This book should be issued for use by every teacher of any science classes from Grade 7 to the first years of college." --Gary Sharp, Professor, Center for Climate/Ocean Resources, California

"This book clearly shows that carbon dioxide is our friend. We should be producing more of it." --Aert Driessen, Geologist, Canberra, Australia
